

Callistemon Red Alert™

A TOUGH ALTERNATIVE TO PHOTINIA

Callistemon viminalis 'KPS38' Red Alert™ PP25,673

General: A compact Callistemon with prominent red [new] growth which is present for approximately two months in spring and two months in autumn, depending on region and climate.

Form & Habit:

- Large evergreen perennial that can reach 8-9' H x 6-7' W (+/-) if left unpruned; dense foliage with an upright and rounded form.
- Zones 9 to 11 for landscape applications

Leaf & Bloom:

- Simple lanceolate leaves arranged in whorls along branches; dark red juvenile foliage... the hallmark feature of Red Alert.
- Non-flowering variety.

Notes:

- Plant in well-drained soils; full to filtered sun
- Drought tolerant but best with regular water
- Responds well to pruning; can be maintained as small as 2' H x 2' W.
