

WESTRINGIA 'WES04' GREY BOX NAMED AUSTRALIA'S PLANT OF THE YEAR

Australian Plant of The Year:

GREY BOX™

Westringia fruticosa 'WES04' PPAF

Grey Box™ is a dwarf coastal rosemary selection that has a natural "box" shape with beautiful gray-green foliage and masses of small white flowers from spring through summer.

It exhibits excellent plant vigor, tolerating a wide range of conditions from hot and dry to wet and humid, even tolerating periodic wet feet (although not recommended). It's also salt tolerant and tolerant of the occasional frosts seen in Zone 9b.

Perfect for a wide range of applications in home gardens, yet tough enough for commercial applications as well!
