

Liriope Isabella™

COMPACT * FINELY TEXTURED * EXCELLENT LAWN ALTERNATIVE

Liriope muscari 'LIRF' Isabella™ PP20,622

General: A great low maintenance lawn substitute, border plant or groundcover with fine leaf texture, low & uniform plant height, as well as good winter performance in temperate climates.

Form & Habit:

- 16" H x 20" W; grows to 6" tall when mowed yearly
- Spreading tussocks of arched to upright evergreen foliage
- USDA Hardiness Zones 6-11

Leaf & Bloom:

- Narrow linear foliage with a dark green color
- An abundance of upright spike-like inflorescences with small pale pink flowers through summer.

Notes:

- Plant in full sun to moderately heavy shade
- Responds well to pruning; can be mowed like turf grass when grown as a lawn alternative
- Prefers free-draining soil
