

Lomandra Great White™

COMPACT HABIT * MID-WIDTH LEAVES * VARIEGATED

Lomandra longifolia 'MURU' Great White™ PP29,618

General: A compact, medium-bladed Lomandra with yellow-green and white variegation, best suited to Western landscapes or container gardening.

Form & Habit:

- 20" H x 20" W (+/-); Evergreen w/ arching foliage
- Moderately fast growing
- Zones 9 -11; Western US

Leaf & Bloom:

- Strap-like foliage; yellowgreen and white variegation; margined white.
- Tightly branched inflorescence with an abundance of small yellow-orange flowers in spring.

Notes:

- Plant in filtered sun to shade
- Adapt to semi-arid to Mediterranean climates
- Great for adding textural and color interest to large water-wise containers.
