

ANISODONTEA 'IB 609-3'

DAYO

SUPER-SIZED BICOLOURED FLOWERS

A Cape Mallow bred to perform. The product of a lengthy breeding program by the team at PGA Innova Bred with the dual aims of larger flowers that display for longer, this is an exciting new introduction. With a compact habit that is suited to high-impact courtyard and patio gardens, combined with the large bicoloured bright pink flowers with dark centres, this plant is bound to win favour with new gardeners looking for flower power and experienced gardeners with an eye for quality.

FEATURES

- Large bicolored bright-pink flowers
- Long-lasting flowering from spring to autumn
- Fast-growing for speedy impact
- Attracts butterflies and garden pollinators
- Easily pruned for hedges and topiaries

USES

- A fine plant for containers and feature planting
- Spectacular flower color show for borders and path edges
- Water-wise and sunny gardens
- High impact, low informal hedges
- Coastal balconies, gardens and landscapes

CARE

Low to medium water needs. Tolerates dry spells but will appreciate a soak during extended dry periods. Fertilize in late winter for optimum results.

ORIGIN: Victoria, Australia // SPECIES: Anisdontea hybrid // PROTECTION STATUS: PP35,004
