

Callistemon Green John™

COMPACT & DENSELY FOLIAGED * EMERALD GREEN LEAVES

Callistemon viminalis 'LJ23' Green John™ PP27,547

General: A seedling selection of Callistemon 'Little John' that is more vigorous, more compact and more densely-foliaged, with emerald green leaves and an excellent bloom habit.

Form & Habit:

- Small evergreen shrub that only grows to approximately 3' H x 3' W (+/-) after five years; dense foliage with a globular form.
- USDA Zones 9 to 11

Leaf & Bloom:

- Simple lanceolate leaves arranged in whorls along branches; new growth is light green and matures to a dark emerald green.
- Large crimson-red bottlebrush inflorescences

Notes:

- Plant in well-drained soils; full to filtered sun
- Drought tolerant once established
- Responds well to pruning; can be maintained as small as 2' H x 2' W.
