

Dianella Little Becca™

EVERGREEN TO ZONE 9 * DROUGHT TOLERANT * SPRING FLOWERS

Dianella caerulea 'DCMP01' Little Becca™ PP18,452

General: Glossy dark green foliage that slowly spreads by creeping rootstock gives this Dianella a mounding habit. Perfect for mass plantings, Little Becca has been used in many commercial sites and highway projects.

Form & Habit:

- 18-24" H x 24" W (+/-); arched to weeping habit
- Rhizomatous, clumping to spreading perennial with a mounding habit at maturity.
- Zones 8 -11; typically evergreen in Zone 9

Leaf & Bloom:

- Medium-width strappy foliage that is bright green to dark green. Relatively soft to the touch.
- Clusters of small purple flowers borne on branched inflorescence that sit above the foliage

Notes:

- Plant in full sun to light shade
- Prefers free draining soils
- Should not require annual pruning
