

Lomandra Lucky Stripe™

BIG, BOLD VARIEGATED PERENNIAL * LOW MAINTENANCE * FRAGRANT FLOWERS

Lomandra hystrix 'LMV200' Lucky Stripe™ PP26,418

General: A large, wide-bladed Lomandra with striking light green and cream variegation. Lucky Stripe is adapt to a wide range of climates and applications, and the foliage stays clean even in full sun.

Form & Habit:

- 36" H x 36" W (+/-); Evergreen w/ arching foliage
- Moderately quick to establish in the landscape
- Zones 8 -11; Mediterranean to subtropical climates

Leaf & Bloom:

- Broad, strap-like foliage; light green and cream white variegation; margined white.
- Tightly branched inflorescence with an abundance of small yellow-orange flowers in spring.

Notes:

- Plant in well-drained soils; full sun to shade
- Plant in a protected area in colder regions
- Great for adding textural and color interest to landscapes and water-wise containers.
