

Fargesia Moontears™

COMPACT GROWTH HABIT * RESPONDS WELL TO PRUNING * NON-INVASIVE

Fargesia murielae 'JAN W3M' Moontears™ PPAF

General:

A compact, clumping bamboo with dark green foliage and a naturally rounded shape; responds very well to pruning, making it ideal for ball-shaped specimens, hedges, or topiaries. Non-invasive and frost tolerant.

Form & Habit:

- 3-4' H x 3-4' W (+/-); compact growth habit
- Fargesia are clumping, non-rhizomatous bamboos which are non-invasive
- USDA Hardiness Zones 5 - 9

Leaf & Bloom:

- Dark green, lanceolate foliage
- Fargesia is a very long-lived, monocarpic plant which means they will only flower at the end of a 80-120 year life cycle.

Notes:

- Plant in full to filtered sun
- Prefers fertile, acidic, free draining soils
- Responds very well to pruning when shaping is desired.
