

Lomandra Shara Blue™

COMPACT * BLUE-GREEN FOLIAGE * DROUGHT AND FROST TOLERANT

Lomandra fluviatilis 'AU807' Shara™ PP23,950

General: A compact Lomandra that is smaller than Lomandra Breeze™ with slightly finer foliage and a nice blue-green color. Resilient to wet soils, drought tolerant, and frost tolerant.

Form & Habit:

- 20" H x 20" W (+/-); arched to weeping habit
- Tightly clumping crown creates a dense tussock
- Zones 9 -11; arid to subtropical climates; plant in a protected area in colder climates.

Leaf & Bloom:

- Narrow linear foliage with a blue-green color
- An abundance of golden-yellow flowers that contrast beautifully against the blue foliage that appear in late spring.

Notes:

- Plant in full sun to part shade
- Tolerates a range of soil types, including wet soils, and is drought tolerant
- Resilient to Phytophthora disease
