

Lomandra Blue Breeze™

BLUE-GREEN FOLIAGE * FINE TEXTURED * DISEASE RESISTANT

Lomandra fluviatilis 'LM380' Blue Breeze™ PP37,137

General: A compact, disease-resistant Lomandra with soft-to-the touch, fine-textured foliage and a nice blue-green color. Drought tolerant but can handle periodic wet feet.

Form & Habit:

- 2' H x 2.5' W (+/-); arched to weeping habit
- Tightly clumping crown creates a dense tussock
- Zones 9 -11; arid to subtropical climates; plant in a protected area in colder climates.

Leaf & Bloom:

- Narrow linear foliage with a blue-green color
- An abundance of weeping spike-like inflorescences with small yellow-orange flowers appear in late spring.

Notes:

- Plant in full sun to moderately heavy shade
- Prefers free draining soils but will tolerate periodic wet feet
- Should not require annual pruning
